A PEER REVIEWED EDITED BOOK ON  
MATHEMATICAL SCIENCE

**Editors**

**Dulal Baruah**

**Dr. Bandita Phukan**

**ARRAY:** A collection of research papers and research articles from distinguished scholars, academicians and faculties of different colleges and universities of India, reviewed by experts and edited by Dulal Baruah, Associate professor of Mathematics, Women's College, Tinsukia and Dr. Bandita Phukan, Assistant Professor, Department of Mathematics, Women's College, Tinsukia, Assam, India and published by Publication House, Women's College, Tinsukia.

**Reviewers:**

1. Prof. Gopal Ch. Hazarika  
Retd. Professor, Department of Mathematics,  
Dibrugarh University
2. Dr. Ankur Bharali  
HOD & Associate Professor,  
Department of Mathematics, Dibrugarh University
3. Dr. Palash Dutta  
Assistant Professor, Department of Mathematics,  
Dibrugarh University
4. Dr. Jiban Changmai  
Retd. Associate Professor,  
Department of Mathematics, Digboi College.

**Publication House:**

**President :** Dr. Rajib Bodoloi  
Principal, Women's College,  
Tinsukia

**Convener:** Mr. Debasis Phukan  
HOD & Associate Professor  
Department of Assamese,  
Women's College, Tinsukia

**Members :** Dr. Surabi Dutta  
Mr. Pulak Bhattacharyya  
Dr. Bandita Phukan  
Ms. Narji Boruah

**Editors :** Dulal Baruah  
Dr. Bandita Phukan

**Member :** Sangeeta Gohain Baruah  
Dr. Abhijit Mukharjee

**Published by :** Publication House,  
Women's College, Tinsukia

**ISBN :** 978-93-91953-09-6

**First Edition :** July, 2022

**Price :** 500/-

**Print :** The Assam Computers,  
Borguri, Tinsukia

**Disclaimer :** The responsibility for the stated facts, opinions and conclusion drawn is entirely that of the author and neither the Editor nor the Publication House of the college.

# CONTENTS

---

1. A Note on Some Topological Indices of Certain Random Chains • <i>Priyanka Agarwal</i>	1
2. Stability Analysis of Two-Fold Solutions of MHD Casson Fluid Flow in an Annular Region with Energy Transfer • <i>Rupjyoti Borah and Utpal Saikia</i>	10
3. A Numerical Study for an unsteady MHD Casson Fluid Flow over a Permeable Stretching Sheet • <i>Debosmita Choudhury and Shiva Rao</i>	25
4. Evidence Combination Method Using a New Distance Measure and its Application in Medical Diagnosis • <i>Bulendra Limboo</i>	35
5. Numerical Study of Variable Viscosity and Thermal Conductivity on the MHD Flow with a Flat Surface • <i>Geeti Gogoi</i>	53
6. Study of Dust-ion-acoustic Solitary Waves in Five Component Magnetized Dusty Plasma • <i>Jintu Ozah</i>	59
7. Similarity Measure Between Focal Element of the Body of Evidence • <i>Sonom Shome</i>	68
8. Computation of Reduced Neighborhood M-polynomial (RNM) and Reduced Reverse Neighborhood M-Polynomial (RRNM) of Triangular Kagome Lattice(TKL) • <i>Monjit Chamua, Mohammad Essa Nazari &amp; Ritupon Saikia</i>	77
9. Effects of Temperature Dependent Viscosity and Thermal Conductivity on a MHD Micropolar Fluid Flow over a Stretching Surface • <i>Dr. Smita Sahu</i>	88
10. A Numerical Approach to an MHD Free Convective Flow with Variable Viscosity and Thermal Conductivity • <i>Dr. Joydeep Borah</i>	97
11. Finding the Branch Currents of an Electrical Circuit Using Graph Theoretic Approach • <i>Dr. Chanchal Boruah &amp; Dr. Chandra Chutia</i>	106
12. Solution of Fully Fuzzy Linear System of equations by Partially Solving Method • <i>Rituparna Chutia, Surabhi Gogoi &amp; Brindaban Gohain</i>	112
13. An Introduction to Multiparameter Eigenvalue Problem • <i>Dr. Surashmi Bhattacharyya</i>	121
14. Soret and Dufour Effects on MHD Micropolar Fluid Flow in a Permeable Channel with Heat and Mass Transfer • <i>Madhurya Hazarika &amp; Barbie Chutia</i>	129
15. Multicriteria Decision Making Using Interval Valued Fuzzy Set • <i>Dr. Pranjal Talukdar</i>	137
16. Simplicial Homology for Topological Spaces • <i>Himanshu Lekharu</i>	149
17. Application of Graph Theory in Computer Network Security • <i>Bastab Jyoti Chakraborty, Rekhmoni Borah &amp; Soumendra Goala</i>	154
18. Graph Theoretical Algorithm in Air Traffic Control • <i>Nomee Begum &amp; Soumendra Goala</i>	160
